

Classic™

Heavy Duty Headset

Durability meets classic communication

Radio Headset for Clear Comms in High Noise

Features

- Noise-cancelling microphone
- Replaceable gel earcups
- Connects to most two-way radios
- Compatible with most hard-hats
- NRR 22
- Interchangeable radio adapter cable
- BT option (connection for cell phones)

When radio communication is critical, CavCom's *Classic™* headset is your answer. This rugged headset uses a noise-cancelling microphone and classic gel earseals to provide clear voice transmissions in high noise areas. The *Classic™* headset is easy to use and works with other PPE making it a great option for teams that rely on clear radio communication but require hearing protection.
