

THE TALK THROUGH YOUR EARS® 5000 ADVANTAGE

The most challenging work environments require the best communication system possible. *Talk Through Your Ears®* provides clear radio transmissions, even in the highest noise and harshest conditions. This lightweight, industry-tough communication system enables an entirely new level of communication. Specially engineered earpieces combine an in-ear microphone and speakers to offer excellent hearing protection and clear voice communication. Take your system anywhere - it's compatible with any two-way radio and any PPE, even respirators! The future of communication is here and *Talk Through Your Ears®* is leading the way.

Earsets

- Microphone and speaker located in earpiece
- Microelectronics provide enhanced speech clarity
- Dual ear listening maximizes receive capabilities
- Low-profile for compatibility with other PPE
- Choose custom molded or universal fit
- Superior hearing protection (NRR 26/29/32)
- Volume-limited to reduce loud radio outputs

Control Units

- Ultra-lightweight - weighs less than 9 ounces
- Powered by your radio - batteries not required
- Rugged industry-tough design
- Connects to most two-way radios
- 360-degree rotating belt clip
- Chest & hip harnesses available
- Multiple button sizes and options
